Principal Say

"When you invest your time, you make a goal and a decision of something that you want to accomplish. Whether it is good grades in school, be a good athlete, be a good person, go down and do some community service and help somebody who's in need, whatever it is you choose to do, you're investing your time in that and inculcating values to yourself."

Every day as I walk down the corridors of our school, I get the hugs by my tiny tots, can hear the chatter of eager little minds, shouts of excitement from the victorious sportsman, see the mischief of naughty children, listen the thump of dancers feet and the sound of melodious voices harmonizing all around. The perpetual energy, movement and enthusiasm permeate the atmosphere at City International School Wanowrie. This keeps all the staff energetic and positive. We value individualism, creativity and innovation and strive to nurture them in all our students.

Our motto "creating global citizens" is in everything whatever we do at the school. We aim not just to impart knowledge to the students, but also to inculcate in them - wisdom, compassion and a humanitarian spirit.

We have a multi-cultural student population; hence we teach children the importance of tolerance and respecting each other's culture and religion. Discipline, values, punctuality, sincerity, sensitivity for others and integrity are the foundation of this school.

Besides scholastic programmes, we seek to develop and nurture the different facets of the students. The school encourages all the students to participate in a variety of co-curricular activities from dance, art and speeches to a variety of sports, to social work, to environmental conservation activities and awareness programs. It is important for a child to explore and find his strengths in order to reach his/her true potential. Whether a child is an introvert or extrovert personality, our aim is to nurture them into a self-confident individual.

The honest truth is that schooling is an absolute fundamental step to a successful life. We try to educate their hearts along with their minds.

As a school we think about how we can engage students and hold their attention. If a lesson is to be productive, we make sure the students actually absorb the topic. With this constant thought in our mind we continuously upgrade our teaching tools and techniques as well as our academic programmes. In a technology prevalent world today, we appeal to young minds by using smart boards into the teaching-learning process.

Our mission is to continue to do what we have always done: develop this school and the students with integrity and values; also, to give our students the best opportunities and the best all-round education. Our vision is to produce students who breed confidence as - Confidence breeds hope and Hope breeds peace which make them optimists, smart and humble citizens who will go out into the world, bring laurels to school and make us proud!

Mrs. Archana Kshirsagar
(Principal)

Valuable Words From Mentors

LIFE

Life is God's given gift
Let's not our duty shift
Even though there is a rift
Try to overcome it with a gist

Love yourself first
Then you will learn to love everyone
Be of service in some form or the other
Be humble, polite, and courteous and have compassion
Give to the needy and your needs will be fulfilled readily
Try your best to lead a simple and honest life
For you get life only once not twice
Thank God a thousand times
For the gift of a wonderful life

LILY ARLAND
(Supervisor Senior Secondary)

Student Life is Golden Life

It is said that "student life is golden life," because student life is the most important part of human life. At this time our mind is like clay. Clay is a very soft thing. The potter makes various things with this clay. Like clay, our mind also can be shaped in different ways. If the pots are once made by the potter, their shapes cannot be changed. Similarly if our character is once formed in one way, it cannot be changed easily. If we receive good training in our student life, we shall be good citizens in our future life. If, on the other hand, we do not receive good training, we shall not be good human beings in future. We should, therefore, be very careful. It is the period of pure joy and happiness, because the mind of a student is free from cares and worries of a grown-up life.

In this period, the character of man is built. So, it is called the formative period of human life. Every student should try his best to make the best use of his student life.

The primary duty of a student is to learn and to acquire knowledge. He must do all his work at the right moment and maintain punctuality and discipline. He must remember that if a student becomes successful in his student career and his character is built on a sound basic, he will be able to shine in any sphere of life and serve his society and country.

A student should spend most of his time of this golden period in reading and learning. A good student never wastes his time fixed for reading uselessly. But he must not be a book-worm being always engaged in his studies. He should also be careful about his health and spend some time daily in some sports and games. He should try to develop his body and mind at the same time.

As a student he must try to develop his intellect. He should also try to acquire some good qualities like obedience, dutifulness, respect for elders and love and sympathy for fellow men in the society. The duty of a student is to obey his parents and teachers and respect the elders of the society.

Students are the future hope of a country. So every student should try to be the best citizen in all respect, so that he may serve his country as much as he can.

Mrs. Sangita Patil
(Supervisor Secondary)

Pre Primary - Play and learn

Activities like rainy day, sandwich making and puppet show were conducted in preprimary classes on different occasions to make the class lively, playful and interesting.

Sandwich Day

Rainy Day

Puppet Show

Visit to the Park

A field trip is an experience outside the classroom walls intended to further children's learning about an instructional goal or objective. One way to escape the confines of the classroom and to afford students opportunities to grow is to encourage students to learn from and to serve the surrounding community where they have discussions with concerned members or local experts on a topic related to course content.

Educational Trip & Activities Of Tiny Tots

We had organized such an educational field trip on the topic "Our Neighbour hood places" to Fire station, IDBI Bank, Hospital, and Post Office for std. I, where they enjoyed thoroughly. We are sharing few pics with you of the same.

IDBI BANK

Post Office

Inamdar
Hospital

ABACUS

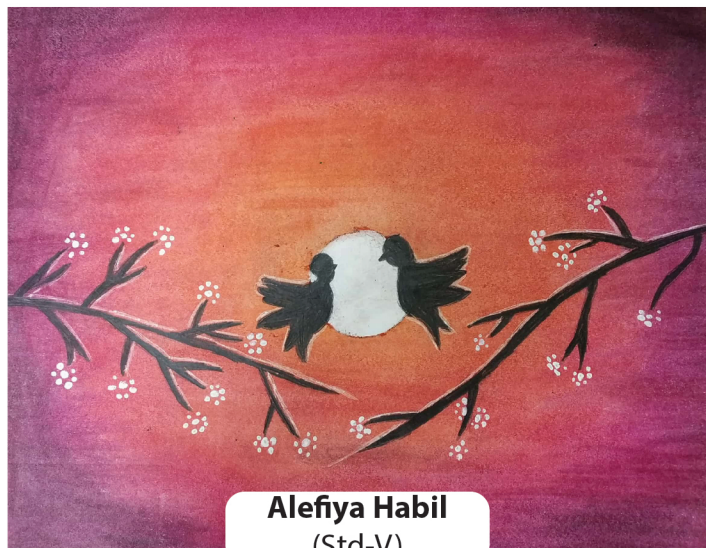

Different classroom activities were conducted in primary classes to make the teaching learning easy for the students by doing Math with abacus, and explaining lessons by doing role plays.

15TH AUGUST
INDEPENDENCE DAY

HAPPY TEACHERS' DAY!

Yoga

Yoga Divas

International Yoga Day was celebrated across the World on 21st June 2018, irrespective of religion, culture or geographical boundaries. We have also celebrated the International Yoga Day in our school. We tried to make the students life beautiful on this International Yoga Day by motivating them, encouraging them to perform yoga everyday in life and also by performing Yoga in the school.

Awareness Program

Effect of Plastic

The students of CIS wanowrie hosted a rally on 23 October 2018 with the theme

'Effect of plastic on environment and quality of life' placards ,posters, and pamphlets expressed the extreme concern about the changes in the climate which are taking place recently. Students sensitized the people on the effect of plastic on the environment which is devastating. Paper bags were distributed as it is the need of the hour its use was recommended in protecting the environmental.

The rally received all praises not only from the common people but also from eminent personalities.

Achievement

Sports

THE PRIDE OF CIS

“Pranaya Pawar” participated in Interschool shooting competition organized by zilla parishad. She stood third and bagged the Bronze medal in the district level adding a feather in the cap of the school.

Cricket

The under 14 cricket team participated in the zilla parishad cricket tournament. Four knock out matches were proudly won out of 5 and successfully reached the quarter finals.

Suraj Dorge std VII scored 80 runs. The team lost just 1 wicket.

The under 17 cricket team scored 155 runs, the highest score in the tournament. They too reached the quarter finals.

Aryan Boge std IX scored 66 runs. Akash Panigrahi took 4 wickets and scored 38 runs.

Students Achievements

Our students of all the classes have bagged the prizes in different interschool competitions conducted by various school and have brought laurels to the school.

A review of a player

"Playing with an uncluttered mind helped Gurpreet" (Indian footballer)

tweet:china has great wall of china; india has gurpreet sandhu-went viral that india held china ranked 21st place higher than them. Goalless despite the hosts creating innumerable chances had a lot o do with Sandhus rock solid goalkeeping be it aerial balls or powerful grounders or close range shots .The 26 years old kept thwarting chinas attacks calmly Sandhu feels playing with a clear mind helped him remain composed under pressure. My plan was simple. **"I feel that we will be always underdogs when we play big teams. But i knew that if i don't concede we will still remain in the game and can have our chances. So i was prepared to save whatever comes my way"** he said.

(Swayam.S.Chavan)

HAPPINESS

'Happiness is the hardest thing to ever fight for but it is the only thing worth fighting for'

What is the most valuable thing? Life? No, it is happiness... A life without happiness is worth nothing. A sad person has sad thoughts. A happy person has happy thoughts. Always give out positive vibes. 'Once, I was removed from a game by my friends. Instead of thinking that they don't accept me, I thought at least I can be happy by myself.' Think of others this will always keep you happy. Give your help to others, you will never feel like you lost something, you will always feel like someone got something. We live in a world where no-one even has the time to stop and talk. Never ever wait for them to stop. You do it! Make yourself happy and others too.. If you are sad, so are the others. So keep happy and be happy. Happiness can never find you. It is only you that can find it. So go on and be happy.

(Aaditi.R. Potey)
(VII-B)

Grand Parents

Grand children usually share a very strong bond with their grandparents. They feel a very comfortable zone with them. They learn good moral values from the grandparents. My grandparents are so loving and caring. They love me a lot. They are the first to look at the needs of the family. They tell me bed time stories but sometimes tease me too in fun. They too get angry sometime when I do something wrong. They teach me good values and how to respect and help others. My grandmother like chocolates. I share my chocolates with her. My grandfather is an ex-army officer. He is sometimes strict, but he loves me a lot. I am very lucky to have such a loving grandparents. I love them all.

(Sarthak S. Sawant)
(Std: IV - A)

HAPPY TEACHERS DAY MA'AM

You teach us everything in the whole world
You make us disciplined,
You make us successful,
You give us lessons to be a good human being.
The school is our temple and the teachers are God.
May all your wishes come true
I pray to dear lord

(Trisha Bhattacharya)

MEET THE MODERN FAMILY

(Technologically fully connected, emotionally disconnected)

Welcome to the new generation of the Badlawat family and to the hype and madness of the new technologies. As I leave today, I'd like to leave behind a few things you could think upon, I'm handsomely, round, and chubby, perhaps a little old fashioned for this new

Hi-fi, wi-fi home. I'm going to miss my family to death for today I'll be replaced just like my other friends, to mention a few – the elderly lamp-stand, (replaced with what looks like a tall, starved English lady standing in the corner with her bonnet on fire) Mrs All India Radio, (replaced by this silvery square-ish young fella' who belts out hundred rhythms at the same time) and Mr wooden rocking chair (with some sort of a road like walking chair (treadmill)). Recently, my old friend TV had to leave, the family was in a frenzy-trying to fit the new one. The only possible place I thought for a thing of this size and shape was – the ceiling. If nothing else, it would keep them a step ahead of others in high-tech living!! And also, enable them one excuse to relax and stare TOGETHER; – For it looked like the mega-version of the very same thing (smart phones) they stare at, day and night,

BY THEMSELVES with hunched backs. Anyways they did what they're best at – the grand family photo frame from the wall above the old TV table, was removed. In place was the Lady in black – all glossy, insanely stylish – awfully BIG flat-screen LCD TV! Yes, their 'new' name well suggests their impulsive ability of thoughtlessly changing treasured memories for the latest fads. Oh! I owe to introduce myself, I'm the good old khandani table – clock and have been in this home from way before they turned into Badlawats.

Not very long ago, they'd cheer over cricket matches, or savour on their favourite movies – Daadi trying hard to suppress her excitement upon the entry of her college day favourite Amitabh ji, Daddu dozing off every few minutes only to wake up by the tan – ta – ran sound, those priceless moments of Mr and Mrs silently listening to their kids, endless chatter while watching Tom and Jerry.

Unfortunately, the hall which was alive with the laughter and excitement of the family, lazing around waiting to watch TV – is no more, now the TV waits to watch the family, for everyone's busy by themselves watching Netflix or any other hopeless thing. Mrs of the household has switched to online food delivery apps; she now prefers cooking up fresh gossip on what's app rather than food. That's not all, Mini Madame spends hours draining her brain on snap-chat and so on, while 10-year old Chintu sahib is forever engrossed commanding and demanding inanimate miss Alexa, that I fear the kids might lose their God-given ability of human reasoning. Sad to say but my replacement, is here: His highness Mr flawlessly good-looking clock, slender, sleek, superior – boasting of solar GPS, low-light visibility, ultra-scratch resistance, and much more: with a clock so advanced, who knows – you might wake up to find yourself having Koffee with Karan! With a heavy heart, I was imagining my left-over future amongst piles of raddi, when I felt Daadi's loving hands placing me beside my late Daddu's picture in her room. **I remember something the kind old man always said: "new things come with fleeting glamour and attractive promises attached, but old treasures stand with a beauty unspoken a purpose unmatched"**

(Roshan D'souza)
(Std-VIII)

EMERGENCE OF NEW TECHNOLOGY

New technologies are drastically changing the modern world in a very innovative and creative way. It is opening many doors of opportunities as well as chances to enhance our everyday 'lifestyle'. No matter which sector you are working in, technology is omnipresent and is almost used everywhere on the planet. It literally makes our work much easier as goods are now produced using advanced machinery and access to Information is just one click away....

Technologies may one day offer us the opportunity to live healthily well beyond 100 years, enhance our intellectual and physical abilities and control our emotions. Technology may also enable us to become producers of our own products, track what we think and guide our decision-making.

But don't you think that humans are relying on technology too much and damaging themselves to a great extent? Information technology sector is becoming the 'world's leading sector' and it has modified our world as means of communication are enhanced.

Certainly, technologies are rapidly developing. We can see that many new systems and applications are emerging. For example:

- Google (Search engine)
- Facebook, Instagram, Twitter, WhatsApp (Social media)
- Google Assistant, Siri, Alexa (Artificial Intelligence)

Technologies, such as Mobile phones, computers, iPod, etc. are bringing a revolution in the lives of human beings and are constantly making humanity lazy, reluctant towards doing tasks and are also making a wide gap between each other.

Communication with relatives, friends, and well wishers is also becoming easy as you just have to dial them up from your mobile phone and communicate. We are slowly becoming slaves of the new technologies.

Technologies are helping us in many ways but are also having a bad impact on us. Now the only question remains is that:

"Is our destiny set by technologies?"

"What do you think?"

प्रेरणा

बढ़ना ही अपना काम हैं ,
सफलता की ऊँचाई पर पहुँचने पर ही तो अपना नाम है।
यदि बैठोगे थम कर एक पल ,
तो न बढ़ पाओगे आगे कभी।
जो मनुष्य चढ़ लेता हैं कठिन सीढ़ियाँ,
वही रहता हैं लोगों के दिलों में हमेशा।
कठिनाइयों का भंडार हैं, समक्ष
जो मनुष्य को धकेलता हैं कगार में।
परन्तु मनुष्य खड़ा हैं लक्ष्यबद्ध,
अडिग, अटल और अपलक।
रुको न कभी , डरो न कभी,
बढ़ते चलो, बढ़ते चलो।
